

Entitled to it.  
One of his grandma's maids of honor tells the following story of Prince Eddie when he was a few years younger:  
Just after King Edward's coronation, when he underwent an operation for appendicitis and was lying convalescent, he sent for his grandchildren.  
The little ones tripped into the room, cautioned by their nurse that they must keep very quiet, and stood about their grandfather's bed. He talked with them for a few minutes and they replied in awed whispers. Then when the nurse told them they must go, Prince Eddie said:  
"But, grandpa, can't we see the baby?"—Harper's Weekly.

Wit in Overalls.  
Said the speaker at a lawyers' dinner: "We lawyers couldn't do better than to resolve in the new year to be gentler in our cross-examinations. Rudeness in cross-examination never, never pays. This is a truth that I once saw proved in a damage suit. In this suit a cross-examination lawyer shouted at a witness in overalls: 'You, there, in the overalls, how much are you paid for telling untruths?' 'Less than you are,' the witness retorted, 'or you'd be in overalls, too.'"—Kansas City Star.

FIFTEEN YEARS OF ECZEMA.  
Terrible Itching Prevented Sleep—Hands, Arms, and Legs Affected—Cured in 6 Days by Cuticura.

"I had eczema nearly fifteen years. The affected parts were my hands, arms and legs. They were the worst in the winter time and were always itchy, and I could not keep from scratching them. I had to keep both hands bandaged all the time, and at night I would have to scratch through the bandages as the itching was so severe, and at times I would have to tear everything off my hands to scratch the skin. I could not rest or sleep. I had several physicians treat me, but they could not give me a permanent cure, nor even could they stop the itching. After using the Cuticura Soap, one box Cuticura Ointment and two bottles Cuticura Resolvent for about six days the itching had ceased, and now the sores have disappeared, and I never felt better in my life than I do now. Edward Worell, Band 30th, U. S. Infantry, Fort Crook, Nebraska."

## PE-RU-NA A MEDICAL COMPOUND

In any medical compound as much depends upon the manner in which it is compounded as upon the ingredients used.  
First, there must be a due proportion of the ingredients. Each drug in the pharmacopoeia has its special action. To combine any drug with other drugs that have slightly different action, the combination must be made with strict reference to the use for which the compound is intended. The drugs may be well selected as to their efficacy, but the compound ENTIRELY SPOILED BY THE PROPORTION in which they are combined.  
It takes years and years of experience to discover this proportion. There is no law of chemistry, of pharmacy, by which the exact balance of proportion can be determined. EXPERIENCE IS THE ONLY GUIDE.

In compounding a catarrh remedy Dr. Hartman has had many years' experience. In the use of the various ingredients which composed the catarrh remedy, Peruna, he has learned, little by little, how to harmonize the action of each ingredient, how to combine them into a stable compound, how to arrange them into such nice proportions as to blend the taste, the operation and the chemical peculiarities of each several ingredient in order to produce a pharmaceutical product beyond the criticism of doctors, pharmacists or chemists.

WE REPEAT, THAT AS MUCH DEPENDS ON THE WAY IN WHICH THE DRUGS ARE COMBINED AS DEPENDS UPON THE DRUGS THEMSELVES.

The compound must present a stability which is not affected by changes of temperature, not affected by exposure to the air, not affected by age. It must be so combined that it will remain just the same whether used in the logging or mining camps of the northwest or the coffee plantations of the tropics.

A complete list of the ingredients of Peruna would not enable any druggist or physician to reproduce Peruna. It is the skill and sagacity by which these ingredients are brought together that give Peruna much of its peculiar claims as an efficacious catarrh remedy.

However much virtue each ingredient of Peruna may possess, the value of the compound depends largely upon the manner and proportion in which they are combined. The right ingredients, put together rightly, is the only way a medical compound can be made of real value.

Tax on Irish Bachelors.  
It is surely the function of the State to encourage rather than to penalize a high birth rate. A bachelor tax exists in many countries. If that course be thought too extreme, a differentiation between bachelors and men of family in the income tax payments would at least tend in that direction.—Dublin Freeman's Journal.

**Poor Paint is Expensive**

If one is rich enough to repaint his buildings every year for the pleasure of having a change of color scheme, the quality of the paint used may cut little figure. But if it is desirable to cut the painting bills down to the least amount possible per year, it is of the utmost importance that the paint be made of Pure White Lead and the best of Linseed Oil. There are imitations in the form of alleged White Lead, and there are substitutes in the form of ready-prepared paints.

We guarantee our White Lead to be absolutely pure, and the Dutch Boy on the side of every keg is your safeguard. Look for him.
